

Concerned about the lack of housing available for new employees within the Wimmera Southern Mallee (WSM)

THE WIMMERA DEVELOPMENT ASSOCIATION (WDA) IS ACUTELY AWARE OF THE CRITICAL HOUSING SHORTAGE, FOR BOTH RENT AND SALE, ACROSS THE WSM REGION.

With a significantly high non-real estate agent (“informal”) housing rental market compared to the rest of the state it can be difficult for new and potential residents to access rental properties.

If you’re a new employee, resident or employer have you considered commercial accommodation providers for short-term stays?

During this time new employees and residents can build relationships and potentially source suitable long-term accommodation through informal rental networks. WDA has identified **over 30** regional accommodation providers across the region who would welcome short-term stays for a few months.
